

EMPOWERING LEARNING ENVIRONMENTS IN NURSING EDUCATION

ElenelP 10 ECTS

UNIVERSITY
OF TURKU

Mini intensive course
in Turku, Finland
21.-25.10.2024

A comprehensive 10 ECTS hybrid course consisting of online collaborative learning activities and an on site intensive week 21.-25.10.2024 at the Department of Nursing Science, University of Turku

Instruction lesson to the course is 11 September at 15-16 (EET).
Pre-seminars will be held at 8 and 10 October 2024 at 12-16 (EET).
International students can participate in these seminars online.
Online group work between 11.9.-11.10.2024.

The aims are to bring together university students in different countries to ensure high quality nurse education related to evidence-based teaching and outcomes concerning digitalisation and social media in nursing education in multicultural European context.

The learning objectives:

- 1) to deepen understanding of modern learning environments
- 2) to learn to use co-operative teaching and learning methods in nursing education
- 3) use of digital pedagogy and social media in teaching and
- 4) understand the multifaceted opportunities of the digital resources in nursing education

The bachelor qualification of health care is required.
