

University research groups

- Researchers at the University of Turku, Åbo Akademi University and TYKS are billed for experimental animal services in accordance with the internal price list
- Invoices paid from funds in the accounts of the University or Åbo Akademi University are not supplemented by the University's administrative expenses
- The university's administrative expenses and VAT are added to the invoices paid by TYKS and other external grants 30% and VAT

External clients

- Other customers are charged for the actual costs of the services
- VAT is added to the invoices of non-internal research groups of the University of Turku according to the confirmed tax rate
- For research services a separate contract is made

Time-mated animals

- The treatment day price is charged for all time-bred breeding animals
- Verification of animal mating (plugging and / or examination of vaginal specimens) is subject to an additional cost based on working time

Course animals

- Course animals are invoiced according to the pricelist
