

International B.Sc. Programme – Sustainable and Social Entrepreneurship

UNIVERSITY
OF TURKU

Academic excellence – why we offer this programme?

Complex challenges such as climate change, biodiversity crisis, social inequality, poverty, preservation of cultural heritage require expertise and know-how related to building positive futures.

Educating the next generation of sustainable managers, entrepreneurs and experts who are committed to both creating positive social and environmental impacts and economic prosperity.

All organizations must engage innovative activities and entrepreneurship in an environmentally and socially sustainable manner.

Social entrepreneurs and change agents are needed in companies and public sector organizations.

Programme study plan – what do we study here?

3rd Year

B.Sc.
Thesis

2nd & 3rd Year

Specialisation studies
& Minor studies

1st & 2nd Year

Entrepreneurship studies
& Languages

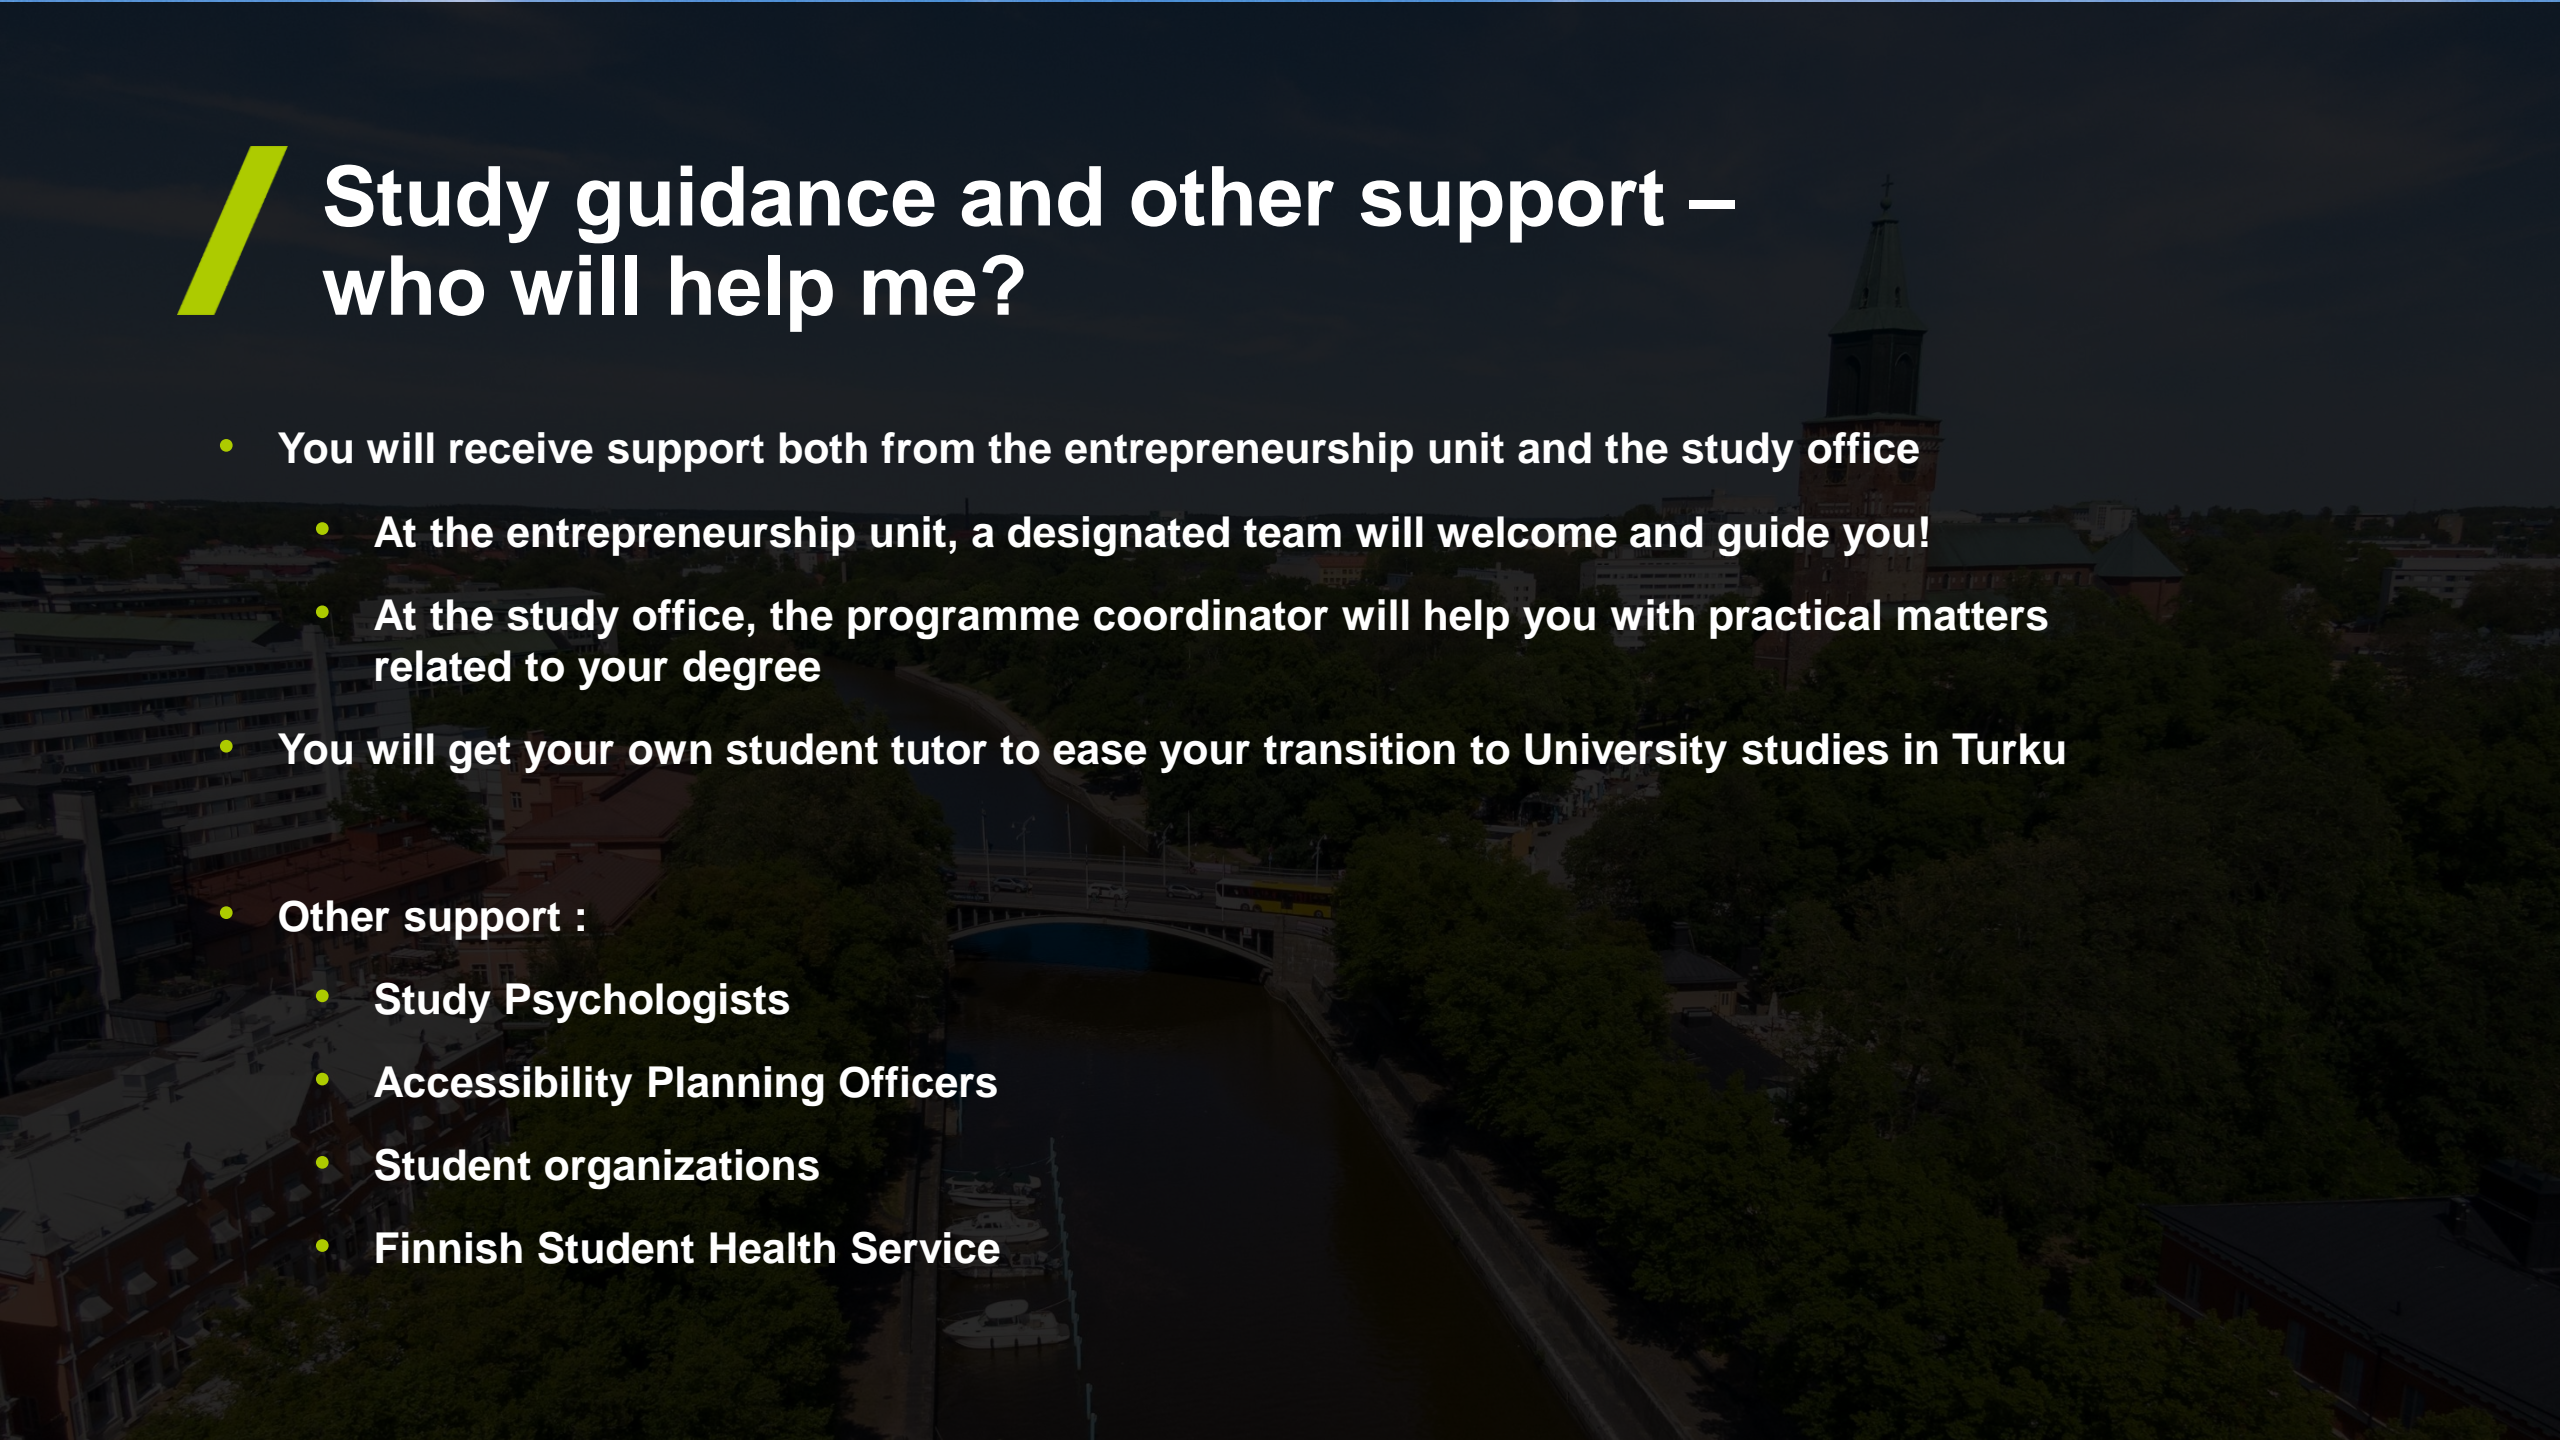

1st Year

Basic studies in business and sustainability

Programme study plan – what do we study here?

- The studies will involve team-work and group assignments to address practical problems from business life combined with theory
- The courses will include both oral and written presentations – a necessary skill in today's working life
- The courses will include guest speakers, for example, entrepreneurs from our Entrepreneur-in-Residence program
- Many courses include experiential elements such as working with the stakeholders and providing solutions for practical problems (e.g. Entrepreneurial Action –course)
- We work closely with Boost Turku, possible to gain study credits from participating their 'Startup Journey' – a summer accelerator programme (<https://www.boostturku.org/about>)

Study guidance and other support – who will help me?

- **You will receive support both from the entrepreneurship unit and the study office**
 - **At the entrepreneurship unit, a designated team will welcome and guide you!**
 - **At the study office, the programme coordinator will help you with practical matters related to your degree**
- **You will get your own student tutor to ease your transition to University studies in Turku**
- **Other support :**
 - **Study Psychologists**
 - **Accessibility Planning Officers**
 - **Student organizations**
 - **Finnish Student Health Service**

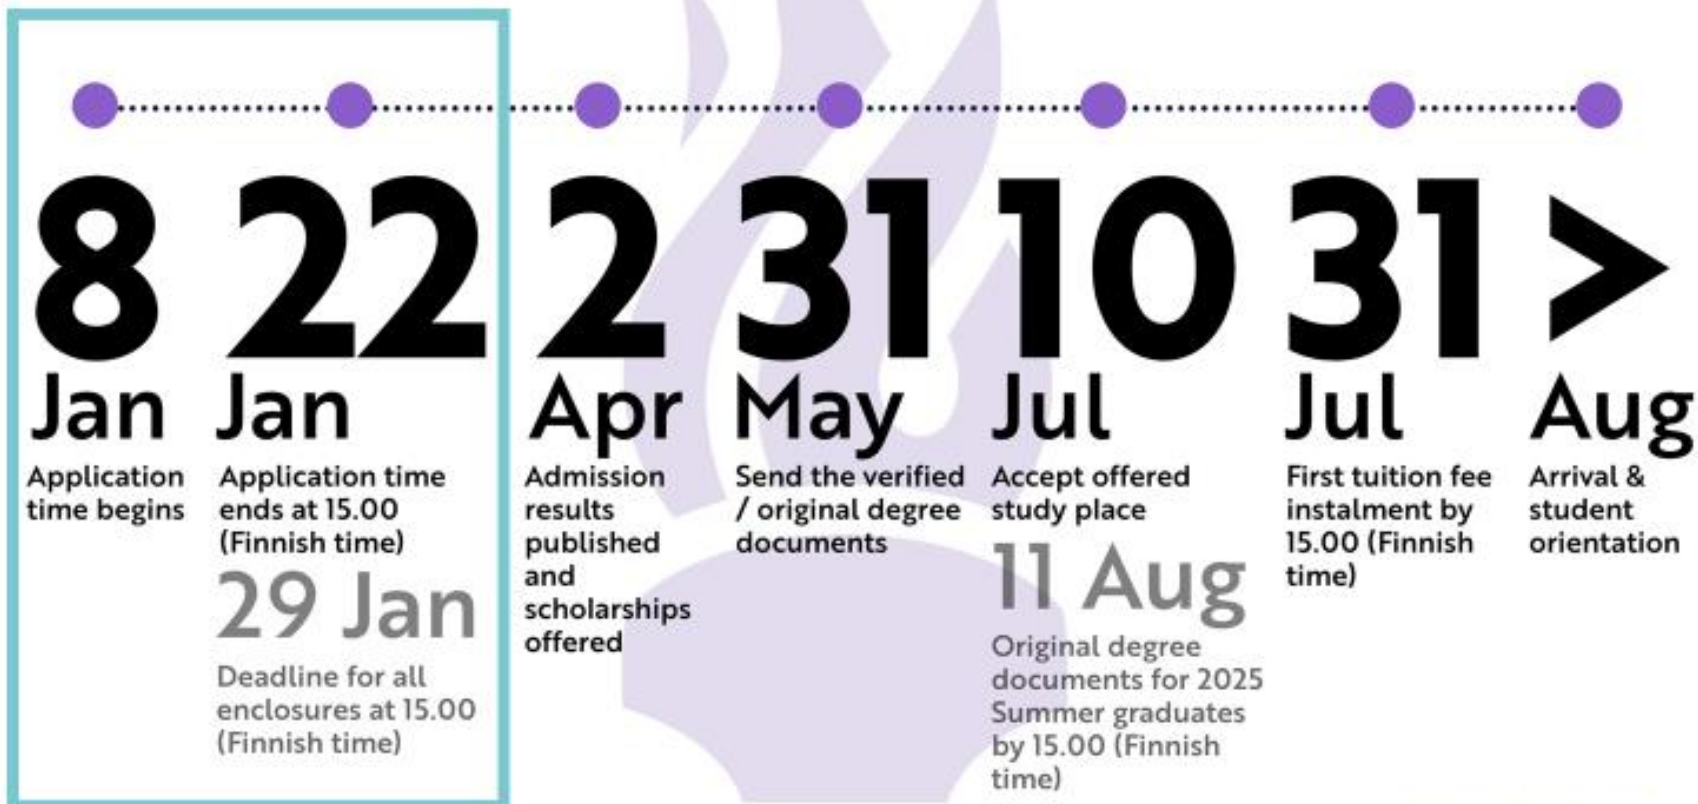

Programme career prospects – what can I do after graduation?

- The Bachelor's degree in Sustainable and Social Entrepreneurship offers valuable skills and perspectives to individuals who want to make a positive impact on society, the environment and the economy
 - By launching their own social enterprises or working in them
 - By working in the organisations at the local, national or international level for example in units targeting or advising on sustainability development goals
 - By working in the third sector for example in sustainability think tanks, research institutes and other non-governmental organizations
- The programme also gives eligibility to apply and continue at International M.Sc. Programmes
