

Preparing your application

Information webinar about applying to the University of Turku
18.11.2024

Valtteri Kiviö
Coordinator
Admission Services

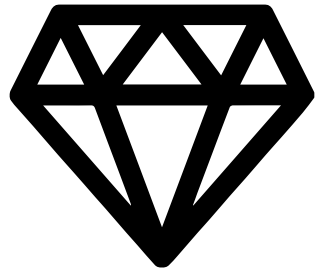

**UNIVERSITY
OF TURKU**

Topics of today

- University of Turku
- International Degree Programmes
- Application period and admission criteria
- Questions?

**Multidisciplinary.
International.
Research university.**

**The University
of Turku is among
the top of the
world's universities
in most rankings.**

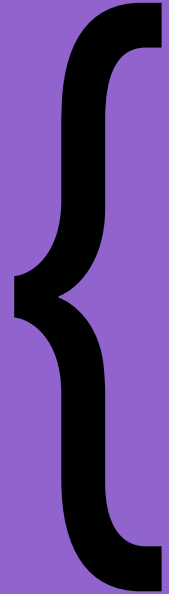

➤ One of the notable alumni of the University is the former president of Finland, Sauli Niinistö.

Among domestic Finnish applicants, the University of Turku is the most popular university in Finland.

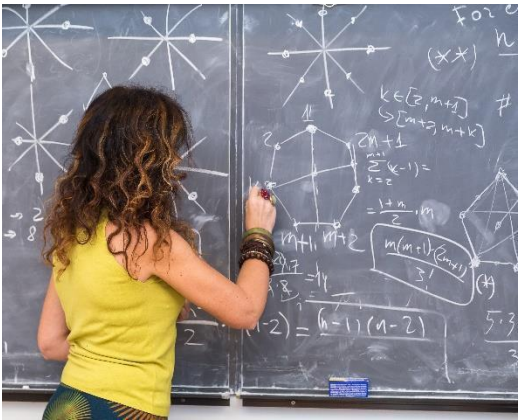

We are a vibrant international academic community of 25,000 students and employees from over 100 different countries.

// From a free people to free science.

**Strategic
Research and
Education
Profiles**

- Biodiversity and sustainability**
- New technologies and digitalisation**
- Cultural memory and social change**
- Children, young people and learning**
- Health, diagnostics and drug development**

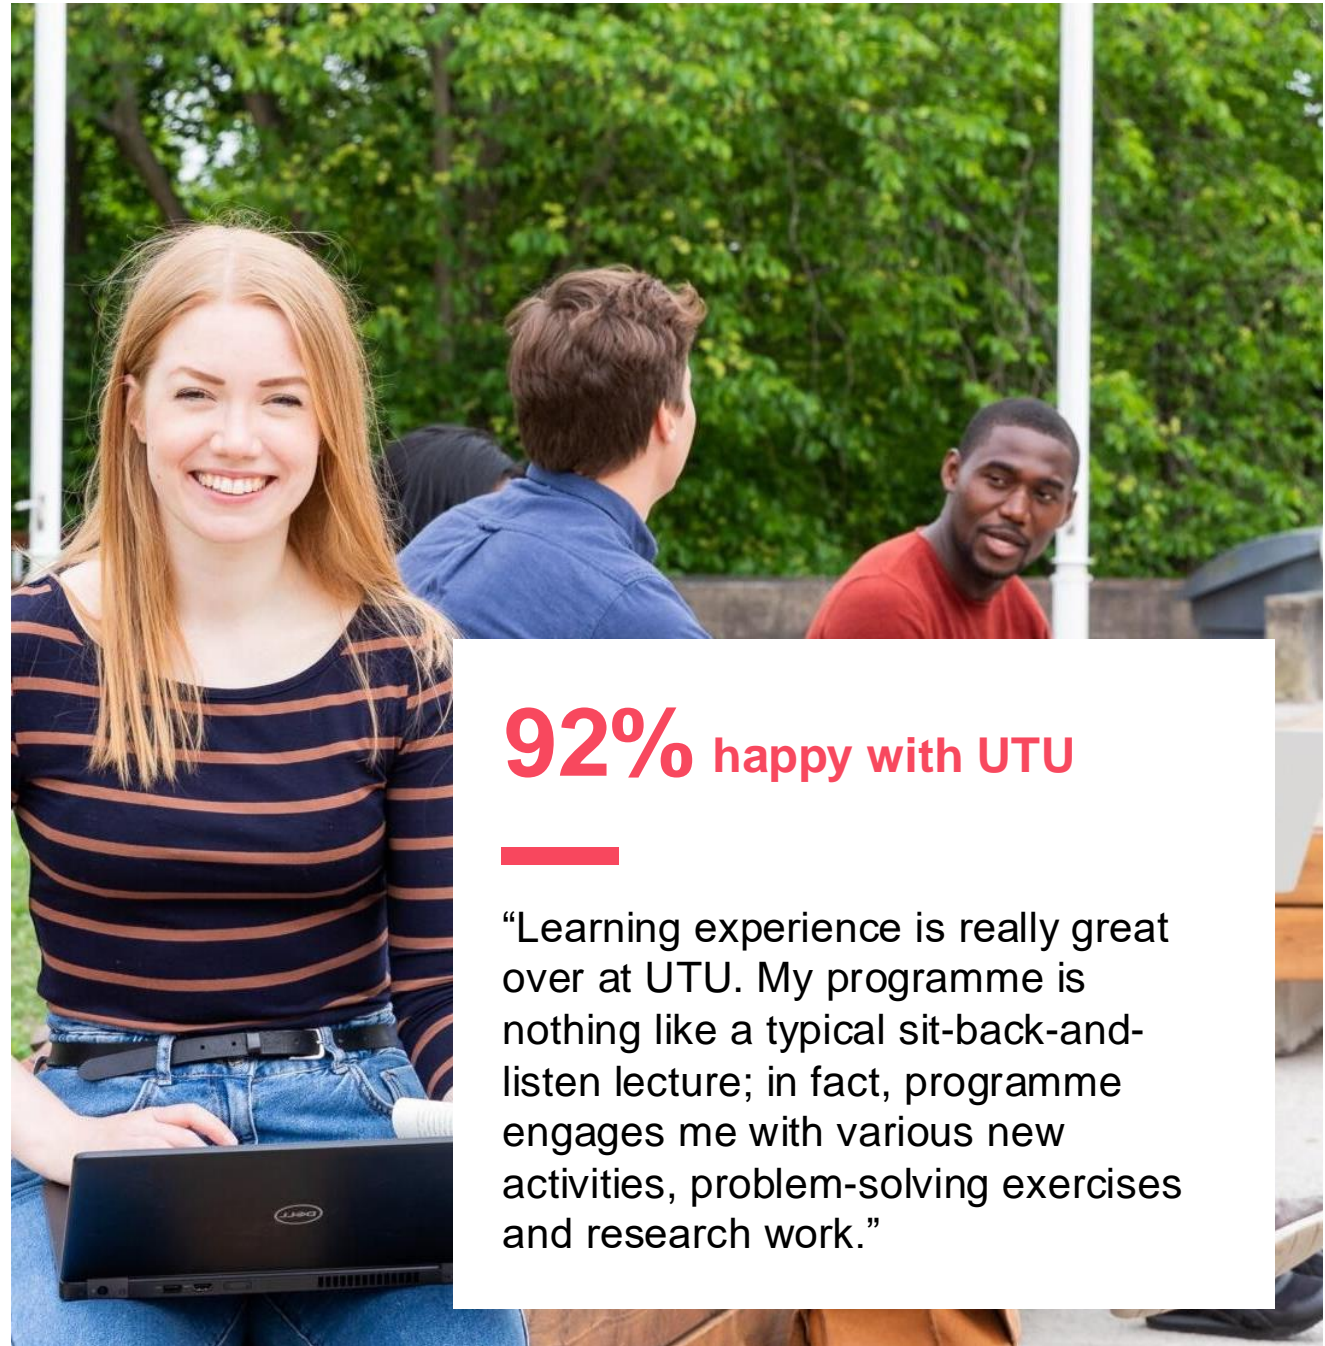

Why international students choose UTU?

1. Cost of study
2. Future career impact
3. Personal safety
4. Cost of living
5. Scholarship
6. Research quality
7. Country reputation
8. Course title

*International
Student Barometer
2023*

92% happy with UTU

“Learning experience is really great over at UTU. My programme is nothing like a typical sit-back-and-listen lecture; in fact, programme engages me with various new activities, problem-solving exercises and research work.”

Strengths of UTU

 One of the most **international** universities in Finland.

 Programmes based on our strengths in **top level research**.

 **Excellent facilities** and learning environments, e.g. libraries and IT facilities.

 **Versatile teaching methods** that challenge students to learn.

 Freedom to choose **elective courses** from other faculties and also other Finnish universities.

 **Small groups** and close professor-student relations.

 **Personal support** and student services throughout your studies.

> [10 best reasons to choose UTU](#)

Career after studies at the University of Turku

With a degree from UTU, you can have an international career in companies in Finland or abroad, start your own business, and continue your studies as a Master's student or doctoral researcher.

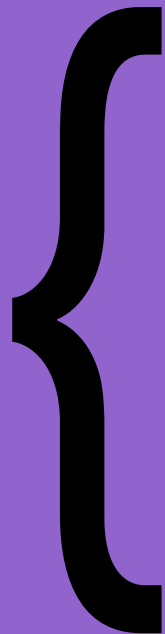

The University supports your career development throughout your studies with internship subsidies, CV clinics, personal career guidance, events and training and networking possibilities

> [More info!](#)

- Graduates can get a residence permit for two years to look for a job or start a business.
- Master graduates have the opportunity to apply for PhD studies in Finland or abroad.
 - In UTU application period for [PhD studies](#) is twice a year.

8
FACULTIES

- Faculty of Education**
- Faculty of Humanities**
- Faculty of Law**
- Faculty of Medicine**
- Faculty of Science**
- Faculty of Social Sciences**
- Faculty of Technology**
- Turku School of Economics**

Education and Learning

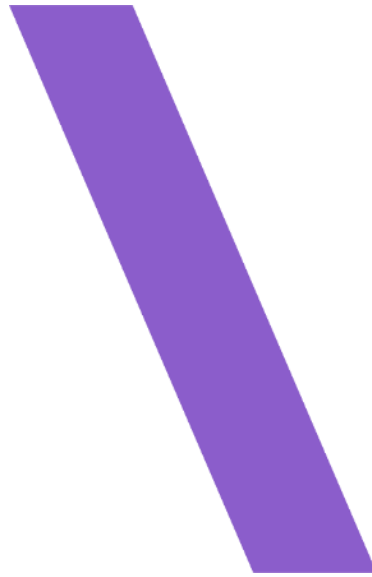

Join the programmes' own webinars during the week!

- 30+ live sessions in 5 days
- Meet academic staff, students, alumni and study advisors
- Learn more in detail about the programmes and get ready to apply!

> utu.fi/degrees

Students

The University is looking for academically inclined, motivated and independent students.

Students who are the best fit for our programmes.

Annual intake approx. 350 students

- Programmes are small to enable close contacts with professors and personal guidance through the entire study path.

Number of applicants has risen — more competition

- In 2024: almost 10 300 applications
- With careful preparation you can increase your chances of being admitted

Step-by-step guide: start now!

1. Find programmes that interest you:
[programme list](#) and [Degree Finder](#)
2. Look under the hood:
programme info page and [Study Guide](#)
3. See updated admission requirements on [Studyinfo](#)
4. Check that you have all needed basic documents:
proof of language skills, degree certificate, transcript of records
5. Prepare for programme-specific requirements:
for example, start drafting your motivation letter
6. Submit your application on 8–22 Jan as early as possible

Master's Degree Programme in Health Technology

In the crossroads of human physiology and digital technology, Health Technology invites you into a world of exciting challenges with purpose. Human sensing, big data, machine learning, and more – let's make solutions for better life!

The Master's Degree Programme in Health Technology programme focuses on health and the measurement and analysis of medical data, as well as machine learning technologies and their use in health technology solutions.

The studies provide a comprehensive knowledge of how data analytics and sensor technology can be utilized in health technology. The teaching focuses on how to apply signal processing, machine learning methods and Internet-of-Things technology for collection and analysis of health related data. Applications include, for example, wellness and health applications, as well as diagnostic and remote monitoring solutions.

Extent of the study programme:
120 ECTS

Planned duration:
2 academic years

Tuition fee:
Free for citizens of EU/EEA countries or Switzerland, for citizens of non-EU/EEA countries €12,000/academic year

Qualifications:
Master of Science (Technology)

Studies begin: late August

Location: Turku (Finland)

Language: English

Mode of teaching:
Contact teaching

Faculty: Faculty of Technology

Annual quota: 20

Application period: January 2025

Entry requirements: In brief below / [Full requirements on Studyinfo.fi](#)

Questions about applying?
Contact admissions@utu.fi

Each programme has their own page that follows this format.

Entry requirements

+ GENERAL ADMISSION REQUIREMENTS

– PROGRAMME-SPECIFIC ADMISSION REQUIREMENTS

Before you start preparing your application, always read the [full admission requirements on the application portal Studyinfo.fi](#)

The applicant's previous degree based on which s/he is seeking admission to the Master's Degree Programme in Health Technology must be in a relevant field of study.

Relevant fields of previous studies for admission are:

- Computer Science
- Computer Engineering
- Biomedical Engineering
- Information Technology
- Other relevant fields of studies where sufficient knowledge of computer science and/or biomedical engineering is achieved.

+ APPLICATION EVALUATION

Programme in brief

+ PROGRAMME STRUCTURE

– ACADEMIC EXCELLENCE & EXPERIENCE

Future technologies and digital society, and health, diagnostics and drug development are central strategic themes at University of Turku. Health technology education and research support these teams, and provide skills that allow developing computational AI based methods for wider and more efficient usage of health data.

[Finnish 1, 4 ECTS, 1.ay](#) (in English)

- The University's [Study Guide](#) is where you can find detailed information about the contents of each degree programme, their curriculum and syllabus.
- Every single course that is included in the degree programme is described in detail.

DTEK2093 Machine Learning Health Technology Project, 5 ECTS

[Show past courses](#)

Learning outcomes

To learn the principles and limitations of machine learning and AI approaches for biosignals and health data. To learn how to build machine learning models suitable for these data types. To learn how to derive predictions from the analysis results. To learn how to improve the analysis/prediction accuracy by fusing different data sources. To develop practical skills in biosignal analysis by doing hands-on exercises.

Study methods

Lectures, Group work, Final project, Presentation

Content

Feature extraction and machine learning methods are discussed in the context of [health and biosignal data](#). Machine learning models suitable for different data types are reviewed. The methods learned during the course are [applied in practice on different datasets](#) – including [electrocardiogram \(ECG\)](#), [electroencephalogram \(EEG\)](#), and [seismocardiogram \(SCG\) signals](#) – to investigate their benefits as well as their limitations.

Course unit methods

Lectures (6h), Studying the course materials (20h), Discussion session (2h), Final project preparation and group work (80h), Writing the final project report (12h), Presentation sessions (6h)

Description of admissions criteria

Annually 20 students are admitted to the Master's Degree Programme in Health Technology.

The decision of admission will be based on

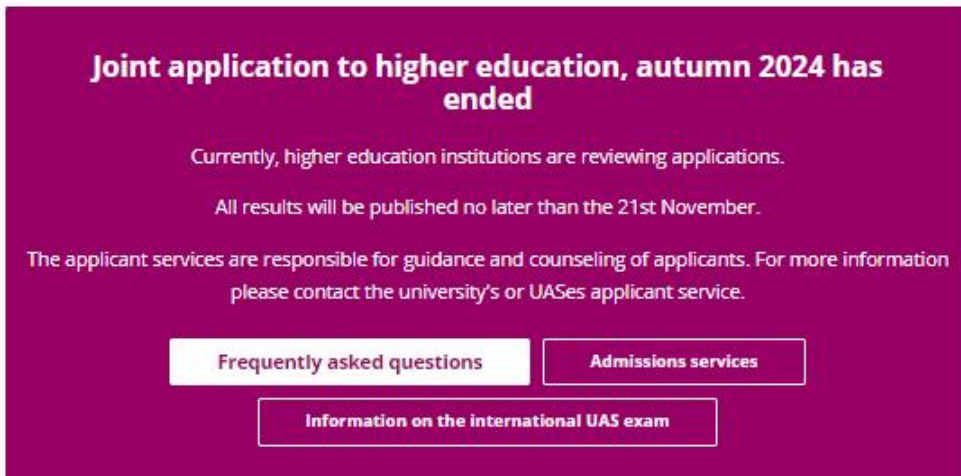

- the relevance of the applicant's awarded degree(s)
- the amount, relevance, and grades of the courses in the degree(s)
- the language test result (see [Language requirements](#))
- the motivation letter and programme-specific questions
- Curriculum Vitae including details on your academic and professional career
- possible relevant work experience
- possible interview

Admissions procedure

Deadline

The application period for the studies starting in autumn 2025 is 8 January 2025 at 8:00 (local time in Finland, GMT +2) – 22 January 2025 at 15:00 (local time in Finland). Enclosures can be added to or removed from an application submitted during the application period for one week after the application period,

Submitting the application in January

Application

- The application is done through the [Studyinfo.fi](https://www.studyinfo.fi) application portal.
 - An application fee of 100 € will be charged from applicants 1.1.2025 onwards.
 - Application fee only applies to citizens of a country outside the European Union (EU), the European Economic Area (EEA) or Switzerland.
- You may apply for up to six (6) programmes included in [the joint application](#). You may apply to a maximum of three (3) programmes at University of Turku during one application period.

General Admission Criteria: Bachelor's degrees

General Admission Criteria

Bachelor's Degrees

- You are an eligible applicant for Bachelor-level studies if you have an upper secondary qualification which provides eligibility to University-level Bachelor's studies in the country where it was awarded.
- Admission is based on the SAT test (**Evidence-Based Reading and Writing** and **Mathematics** sections).
- Please read the full programme-specific admission criteria before you apply.

General eligibility when applying to Bachelor's degree programmes

- You are an eligible applicant for Bachelor-level studies if you have one of the following qualifications:
 - the Finnish matriculation examination
 - the International Baccalaureate (IB)
 - the European Baccalaureate (EB)
 - Reifeprüfung/Die Deutsche Internationale Abiturprüfung in Finland (Deutsche Schule Helsinki)
 - **other comparable upper secondary educational qualification which provides eligibility to University-level Bachelor-studies in the country in question.**
 - an applicant with a higher degree than the ones mentioned will also be considered eligible.

General eligibility when applying to Bachelor's degree programmes

- If you are applying with the Finnish Matriculation Examination, IB, EB or RP/DIA qualification (Admission Group II), you do not need to sit for the SAT test.

> **All other applicants must have the SAT test completed and their score report attached on the application form.** (Admission Group I)

- Required test sections (for both Bachelor's degree programmes):
 - *Total score*: at least 1150
 - *Math*: at least 600
 - *Evidence-Based Reading and Writing*
 - Scores lower than those mentioned above will not be considered for admission.
- SAT scores typically available within 2–4 weeks.
- Two test dates still available in 2024:
 - November 2 (register by 18 October)
 - December 7
- You must register an account on the College Board website, search for a test site close to your location, and register for the test.

More info: collegeboard.org

Score Report

DI Code: XXXXXX

Report Date: Oct. 09, 2024

Cross Test	Analysis in History/Social Studies					
	Analysis in Science					
Subscores	Command of Evidence					
	Words in Context					
	Expression of Ideas					
	Standard English Conventions					
	Heart of Algebra					
	Problem Solving and Data Analysis					
	Passport to Advanced Math					

Score Ranges: Total: ± 37–41 points. Evidence-Based Reading and Writing Section: Math Section: ± 27–33 points. Test Scores and Cross-Test Scores: ± 2 points. Subscores: ± 1–2 points.

General eligibility when applying to Bachelor's degree programmes: Language requirements

- If you are applying in *Admission Group I*, that is, based on the **SAT test**, you **do not** need to provide separate proof of your English language skills.
- If you are applying in *Admission Group II*, that is, based on your Finnish Matriculation, IB, EB, or RP/DIA qualification, you must either reach a sufficient grade in a designated English subject in your corresponding degree, or provide other proof of English language skills.
 - See our full [language requirements](#) for all possible methods of proving English language skills when applying to Bachelor's degree programmes.

General Admission Criteria: Master's degrees

General Admission Criteria

Master's Degrees

- Bachelor's Degree or other first level University degree
 - minimum 3 years in length
 - You can apply with an incomplete degree, if the proof of graduation and the final degree documents reach us by the beginning of August.
- Strong English language skills
 - IELTS 6.5 / TOEFL 92
 - Degree in an English-language programme in certain countries. [Full list on our website.](#)
 - No exceptions will be made on the language requirements!

Previous degree

- You are an eligible applicant for Master-level studies if
 - you have a nationally recognized first cycle degree – typically a Bachelor’s degree – from an accredited institution of higher education,
 - your degree corresponds to at least 180 ECTS (European credits) or to three years of full-time study,
 - your degree gives eligibility to master level studies in the country where it was issued,
 - your degree is in a relevant field in regard to the Master’s degree programme that you are applying to. Please check the programme page for detailed degree requirements.

Please follow these guidelines when uploading your documents:

- Name the attachment file(s) in the following way: Lastname_First name_description/name of document. For example, Smith_Mary_language test certificate.
- Scan all the pages of the required document or take good quality pictures. Make sure that the pictures/scans are legible.
- Combine the pages of the same document into one file. For example, an educational certificate should be in one file that can include several pages. Check that the documents are all positioned in the same way upright.
- Recommended file formats are: PDF, JPG, PNG and DOCX.

IELTS Academic / IELTS Online/ IELTS Indicator

IELTS Test report form number (mandatory information)

IELTS Test Report Form

Please attach a scanned copy of your IELTS Test Report Form here.

All the test results will be verified from the IELTS online verification service.

Upload attachment... Maximum file size is 1.0 GB
Deadline In [redacted] at 03:00 PM UTC+2

PTE Academic / PTE Academic Online

Cambridge C2 Proficiency (CPE)

Cambridge C1 Advanced (CAE)

National Certificate of Language Proficiency (YKI test)

A higher education degree completed in English in certain countries (please see the list by clicking this option).

Other methods of demonstrating language proficiency (click to open options)

Programme-specific requirements

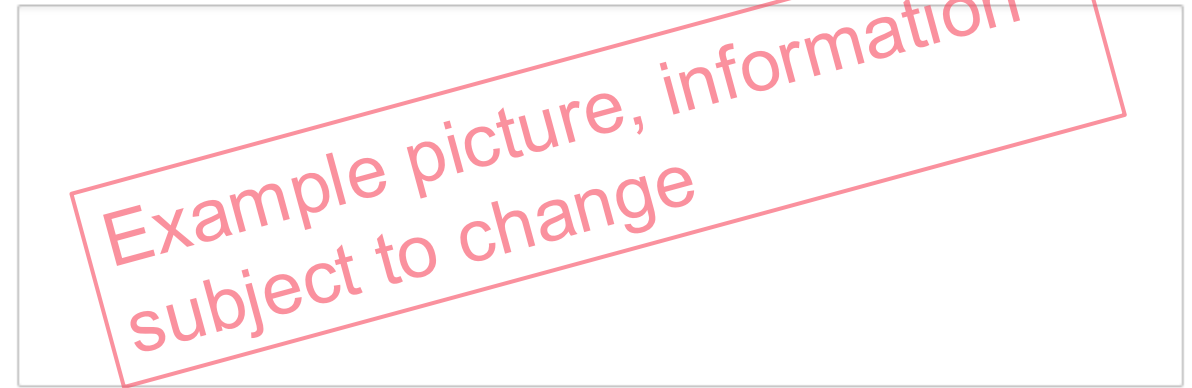

- Programmes may ask for documents other than those mentioned previously.
- Read the admission criteria carefully to find out what the programme's evaluation is based on, and what they are looking for.
- Follow the instructions given on the application form.

Inequalities, Interventions and New Welfare State - Research methodology courses in quantitative methods or statistics (mandatory information)

This question is for study programmes:

[Show study programmes \(1\)](#)

- List briefly the main statistical tests and methods covered in your previous studies.
- List what statistical programmes you have used in your previous studies.
- Write precise information where the proof can be found in the attachments (for example courses included in the transcripts or research papers specifying use of quantitative methods).

Inequalities, Interventions and New Welfare State - Self-introduction video

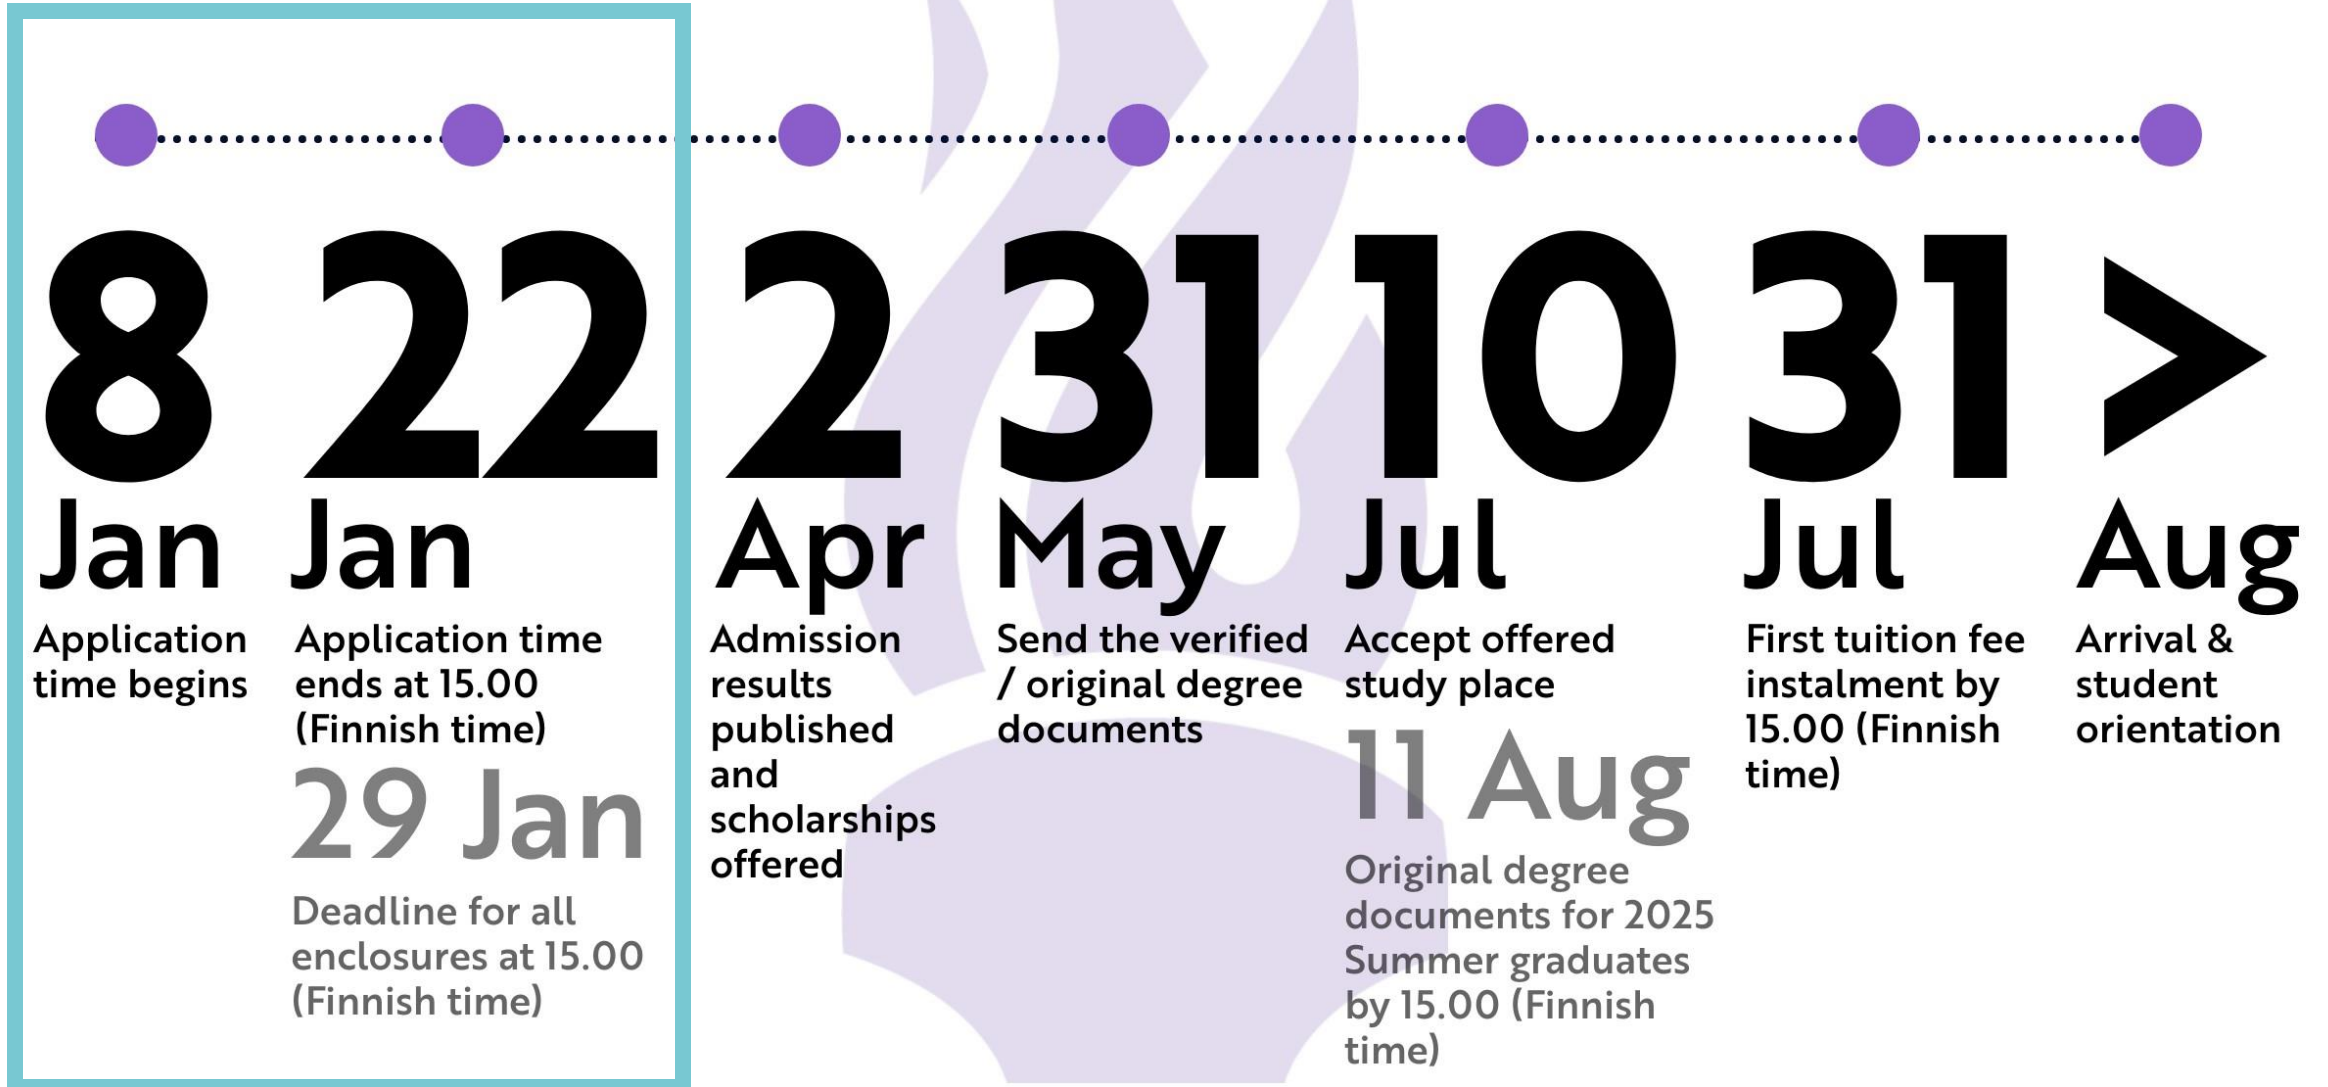

Request for attachment is for study programmes:

[Show study programmes \(1\)](#)

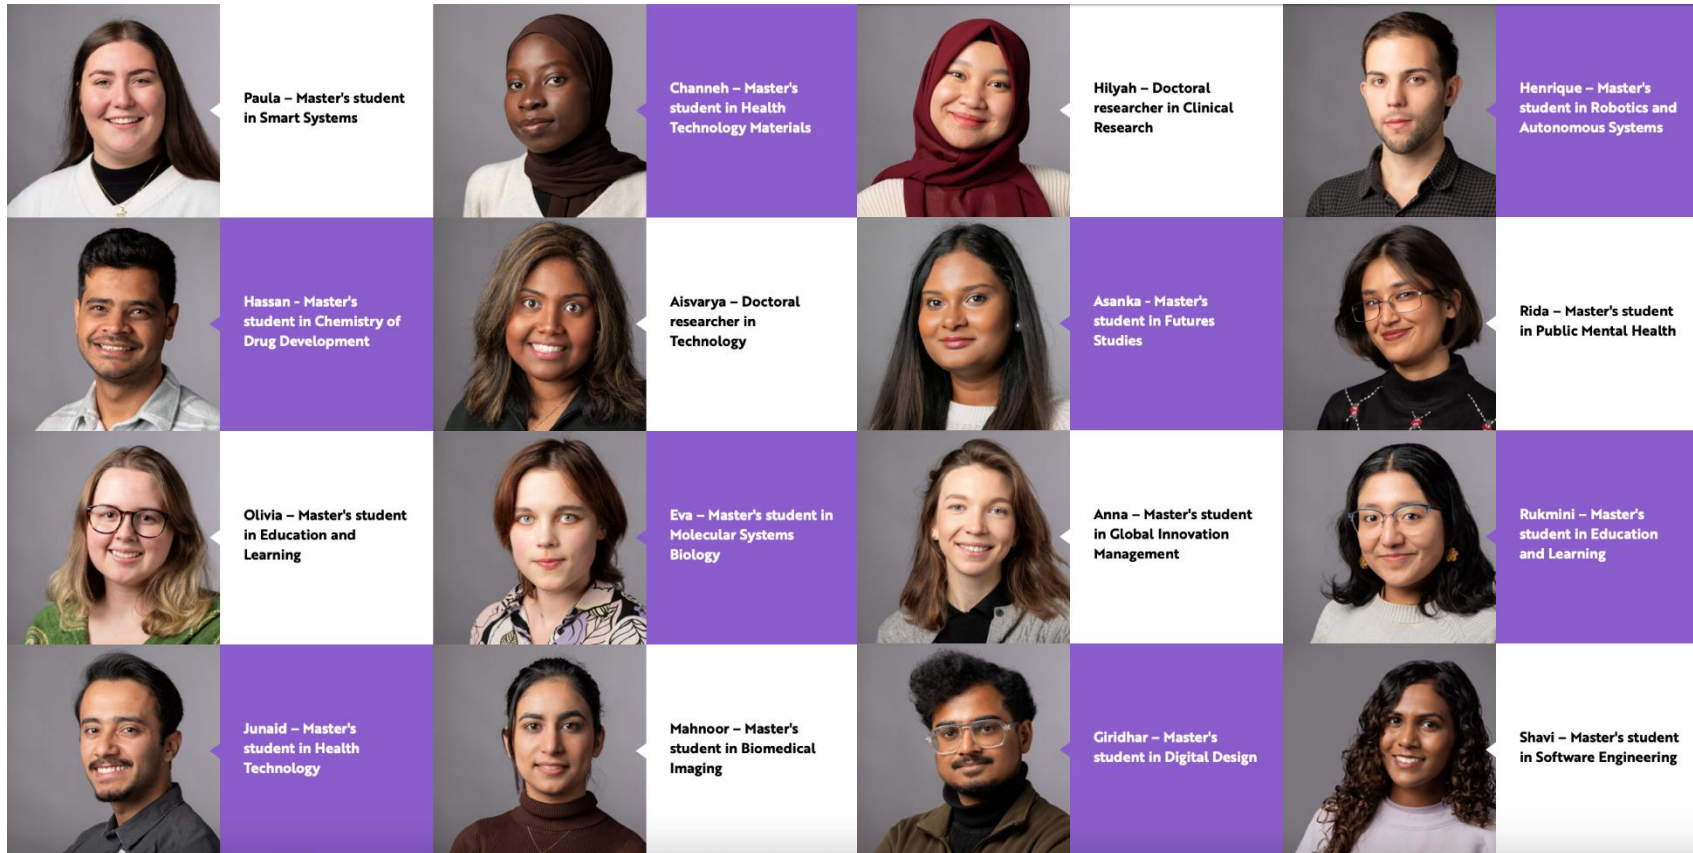

Accepted file formats are mp4 (recommended), x-m4v, x-matroska, x-msvideo, mpeg, ogg, webm, 3gpp, 3gpp2, MP2T, quicktime, x-ms-wmv, x-ms-vob.

- **In the video, briefly introduce yourself and explain what motivates you to apply for the Inequality programme.**
- Maximum size of the video file is 1 GB.
- The language of the video is English.
- The length of the self-introduction video is max. 2 minutes. Video content outside the 2 minutes limit will not be taken into account for the evaluation, and only the above-mentioned video file formats will be accepted.

ADMISSIONS TIMELINE 2025

Talk to our current students!

> [Chat with UTUambassadors!](#)

Time for questions!

Step-by-step guide: start now!

1. Find programmes that interest you:
[programme list](#) and [Degree Finder](#)
2. Look under the hood:
programme info page and [Study Guide](#)
3. See admission requirements on [Studyinfo](#)
4. Check that you have all needed basic documents:
proof of language skills, degree certificate, transcript of records
5. Prepare for programme-specific requirements:
for example, start drafting your motivation letter
6. Submit your application on 8–22 Jan as early as possible

**UNIVERSITY
OF TURKU**

Kiitos! Thank you!
