Our Panel Today

Channeh Camara
Master's student in
Materials
Engineering: Health
Technology Materials

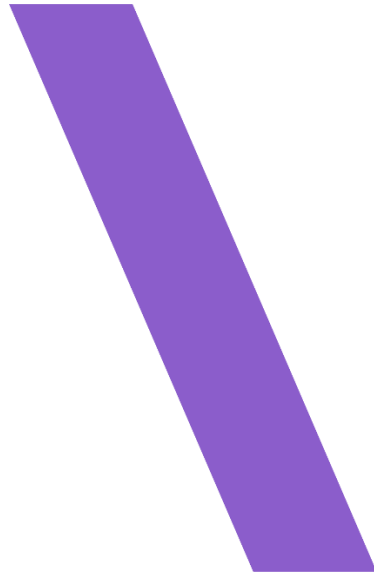

Rukmini Sanabria
Master's student in
Education and
Learning

Aisvarya Adeseye
Doctoral Researcher,
Department of
Computing

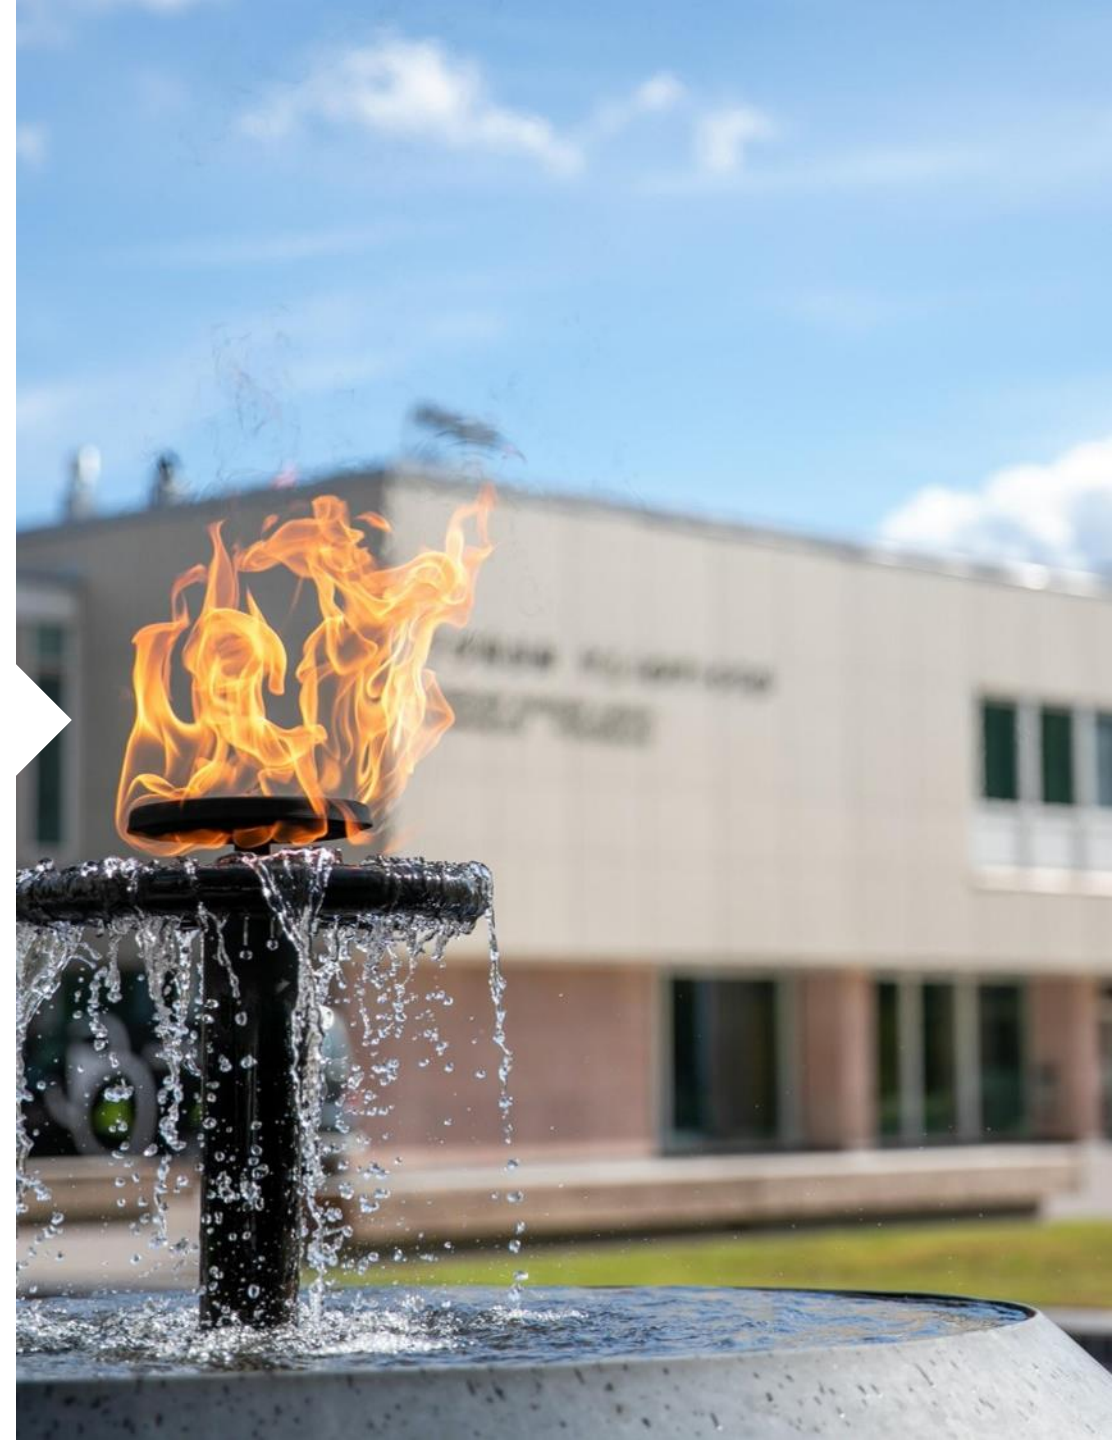

**Insights from
each panelist**

**Time for your
questions!**

Channeh's key highlights:

- Efficient admission support services
- Freedom & responsibility at UTU
- Low teacher-student hierarchy
- Study feedback culture

Efficient admission support services

- One of the things that impressed me was how quickly the admissions office and university staff responded to emails.
- Whether I had questions about my application, course details, or settling in, they always provided clear and helpful answers.

Freedom & responsibility at UTU

- Freedom is something highly vital here at UTU.
- A flexible method of studying.
- Studying in a new environment comes with responsibilities, however here at the university you don't have to bear it all alone.

Low teacher-student hierarchy

- Approachable Professors.
- The opportunity to receive guidance any time when needed.

Study feedback culture

Professors are happy when feedback is given.

Most of the courses have a feedback section for students.

Feedback can be good or bad.

Feedback helps one to improve in themselves.

Rukmini's key highlights:

- Multicultural and international focus
- Educational delivery modes
- Learning methods
- Exams and assignments

Multicultural and international focus

- Students, teachers, and researchers from over 100 different countries.
- Classes and discussions that address global challenges.

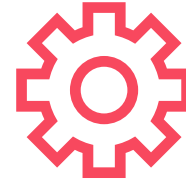

Educational delivery modes

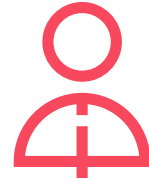

Self-paced

Online

Hybrid

Campus

Learning methods

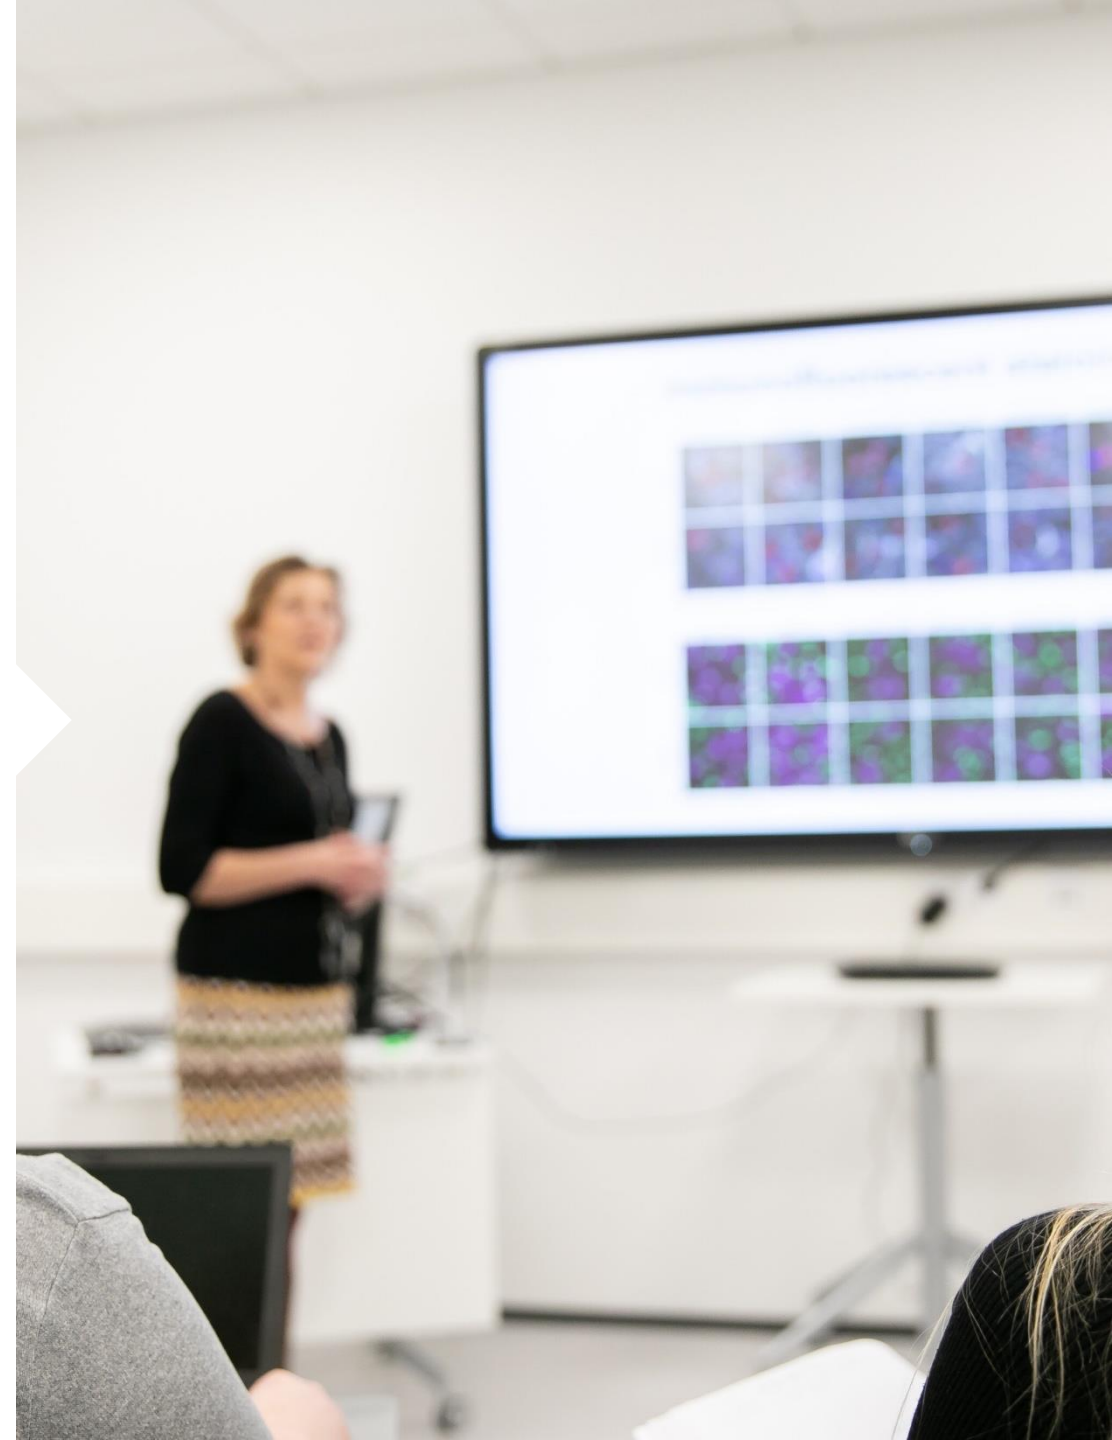

- Flipped Classroom
- Independent study
- Collaborative learning

SKILLS:

- Critical thinking
- Self-regulated learning
- Social-emotional learning

Exams and assignments

- Book exams
- Up to 3 attempts
- Continuous assessment (active participation, group works, presentations, essays, etc)

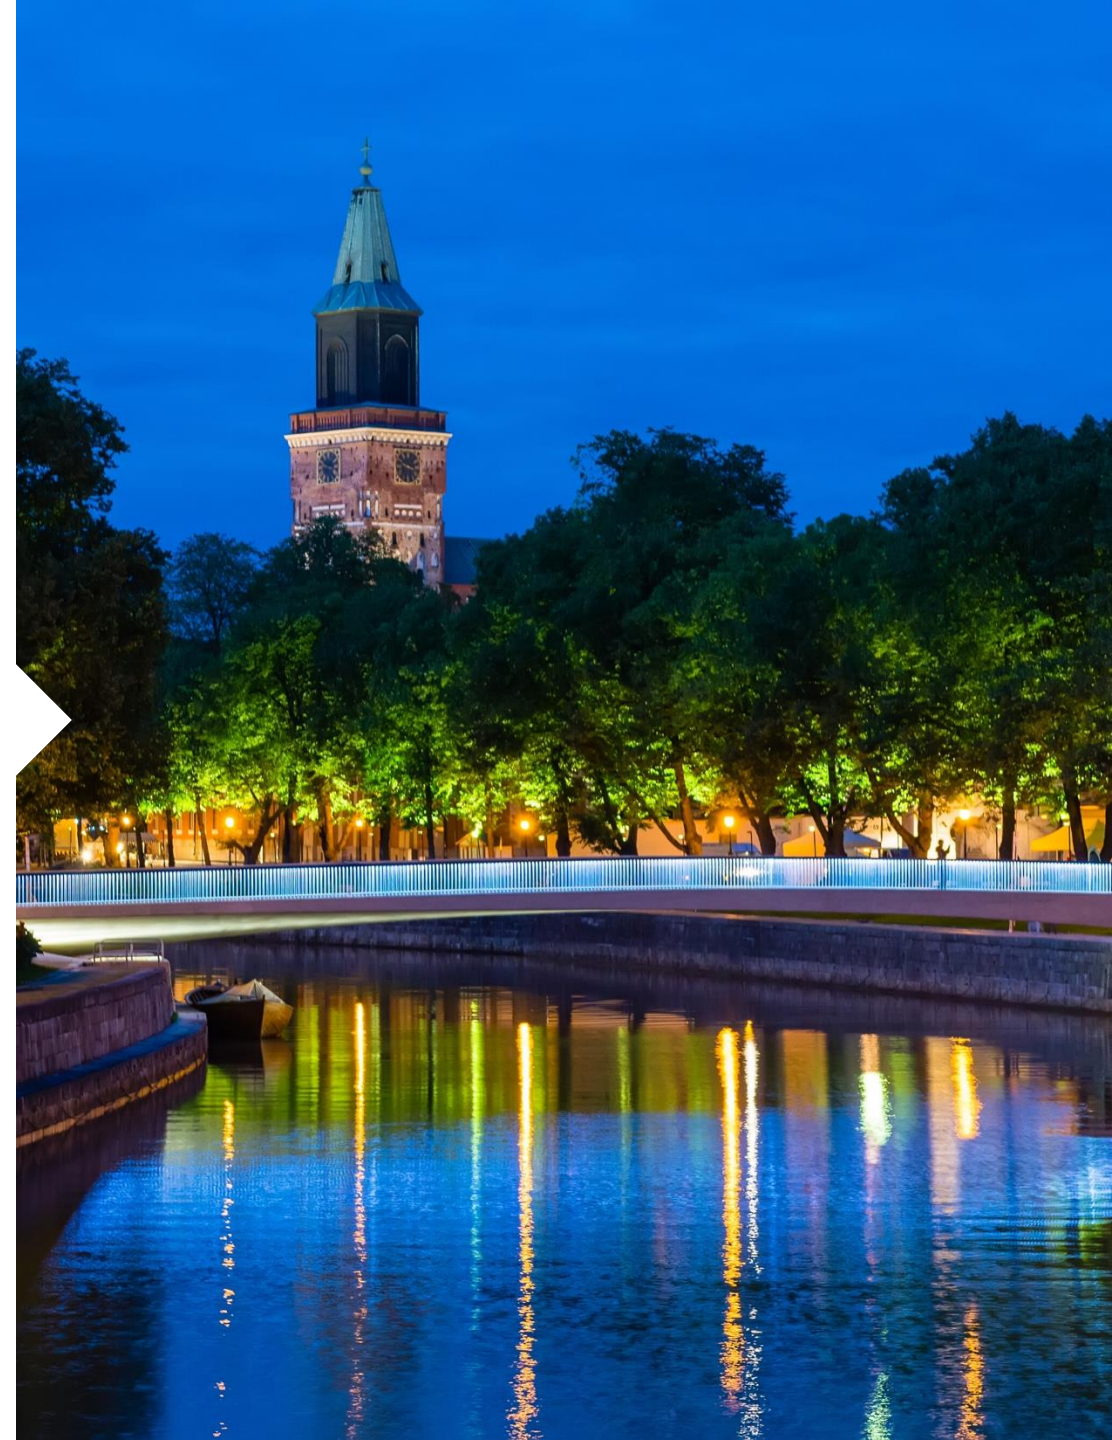

Aisvarya's key highlights:

- Flexibility curriculum
- No restrictions on additional credit opportunities
- Interdisciplinary course flexibility
- Flexibility in graduation timeframe
- Supplementary studies after graduating

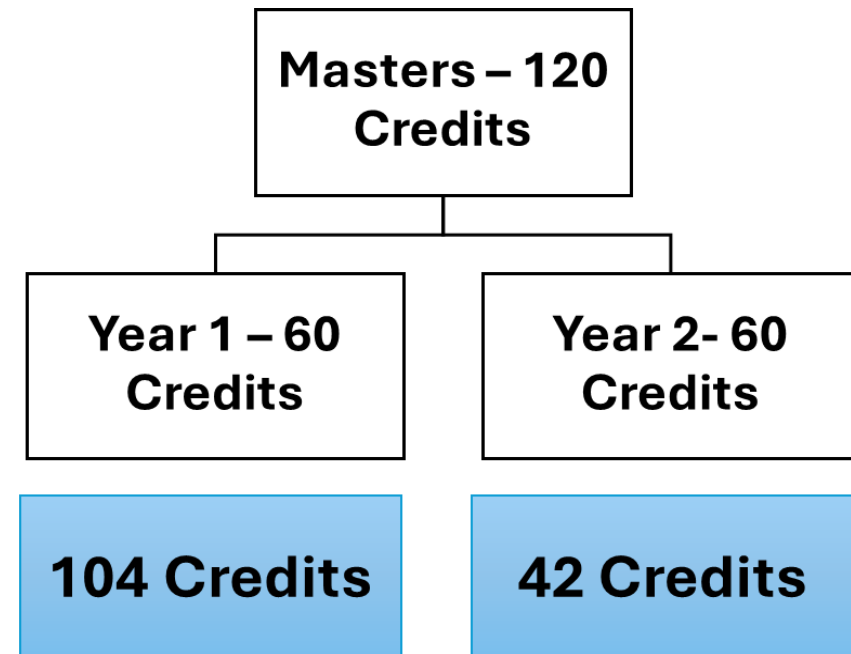

Flexibility curriculum

- Compulsory Courses
- Optional Courses
- Other Courses

No restrictions on additional credit opportunities

Interdisciplinary course flexibility
